Installation Instructions

⚠ Turn off power at the circuit breaker before installation.

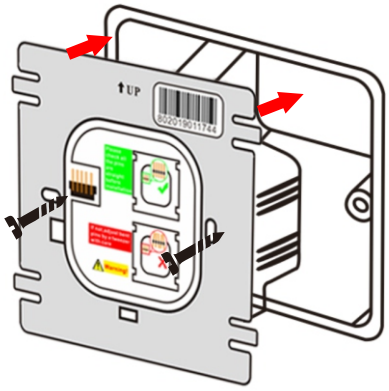

1. Use a compatible mounting box as shown below. Figures 1 and 2 show EU mounting boxes. Figure 3 shows a US mounting box.

2. Turn off power and connect the wires according to the wiring diagram.
Tool Required:
Flat-head screwdriver ⊖

3. Secure the switch into the wall box and tighten screws.

4. Install the front panel and restore power.
